## EICKWRAP BANDAGES

---

These high quality bandages have a self-textured surface structure allowing the layers of the wrap to bond together for maximum holding power. They do not constrict or impede the blood circulation and facilitate natural movement, whilst still providing support. EickWrap bandages are ideal for horses legs, hooves or dog and cat paws.

- ▶ Cohesive bandage
- ▶ Conforms itself to the shape of the area where it is applied
- ▶ Self-adhesive, but it will not stick to the skin
- ▶ Allows air to circulate over the skin and around the dressing
- ▶ Helps keep dressing in place
- ▶ Individually packaged – assorted colours

5 cm / 36 per box
